From Local Page to Published Interactive Site

Goal

Organize a small site with predictable names and relative paths

Evidence

No test recorded yet.

Record a test

Acceptance check

Students diagnose three fail

GRD405 progressive demo.

Evidence

Test recorded. Describe the observable result.

Record a test

Perform the Required Controlled Fault and Repair |

119 <p>This page demonstrates structure, navigation, interaction, and testing.</p>

```

This exercise implements a small interactive webpage following the Publish-Test-Fix workflow. I added anchor-link navigation for the About section, ensuring href matches its target id. I updated the button with the motion CSS class and modified its JavaScript feedback message, and tested mouse and keyboard operation. I ran a narrow-viewport mobile test to check responsive layout. I created and fixed a case-sensitive image-path bug with comparison screenshots. All local acceptance checks passed
